

ACOUSTIC WINDSHIELD

Clearly Quieter

By using special interlayer, Acoustic glass reduce noise coming through the window and comfortable cabin environment is attained without increasing the weight or thickness of the glass.

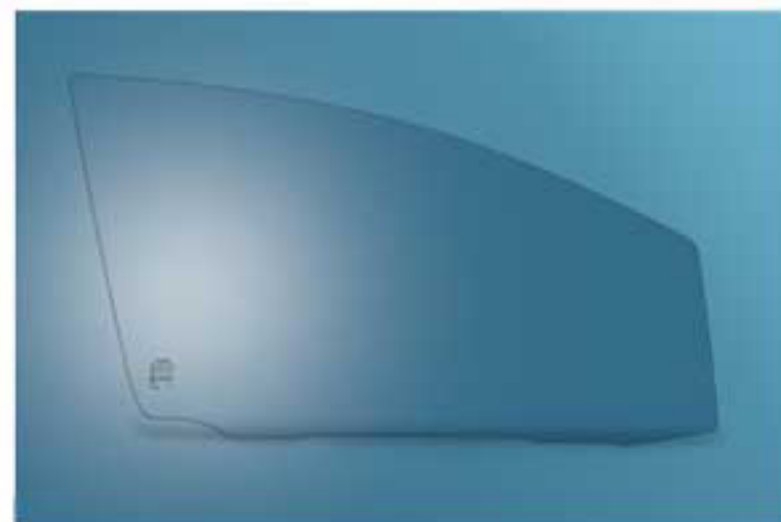

Benefits

- 01.** Strong reduction of traffic noise, but external powerful sound such as horns, sirens etc. are remain audible.
- 02.** Safer in the event of accidents: in case of glass breakage, prevents sharp pieces of glass from being propelled inside the vehicle.
- 03.** Protects your skin, block of ultraviolet (UV) rays.

Application

Windshield

Front Door

LAMINATED DOOR GLASS

Ultimate UV Protection

Laminated side window help to shield vehicle interior from intrusion, it can cuts UV rays more than 99% and reduces noise coming through the window. In the event of an accident or other object striking the glass, the likelihood of penetration into the vehicles cabin is lower.
