

SMART GLAZING WONDERLITE™

Wonderful Light & Shading Control
"On Demand"

Benefits

- 01.** Providing well-being, comfort & gratification to car consumers searching for a WOW- feature in their car.
- 02.** On demand control of the amount of light entering the vehicle at the simple touch of a button. In a few moments, the glass switches from clear to dark and vice versa.
- 03.** Skin health protection by preventing UV-Rays from entering the car.
- 04.** Enables fuel savings and decreases CO2 emissions by reducing air-conditioning needs.

Application

Sunroof

THINNER GLASS

Lighter Car, Less Emissions

AGC Automotive offers thin glazing, the reduction in vehicle weight leads to lower CO2 emissions. These initiatives are not only good for the planet, but also for the wallet of the end-users.

Thickness
2.85mm
